## INTERNATIONAL ELECTRONIC JOURNAL OF MATHEMATICS EDUCATION

---

**International Electronic Journal of Mathematics Education** (IEJME) is a peer-reviewed, online, open access, academic journal devoted to disseminate new research and theory in the field of mathematics education.

IEJME is published three times a year, in January, May and October.

IEJME aims to stimulate discussions at all levels of mathematics education through disseminating significant and innovative scholarly studies that are of value to the international research communities. The journal welcomes articles focusing on all aspects of mathematics education including empirical, theoretical, methodological, and philosophical works that have a perspective wider than local or national interest.

IEJME publishes only original scholarly works. Manuscripts that are indeed a derivative or replication / duplication (if there is not clear reason, justification) of previous work are not accepted and will not be published in IEJME. Please do not submit the same manuscript simultaneously or separately to IEJME with another journal. In such cases the responsibility solely rests with the author(s).

Manuscripts are reviewed initially by the Editors and only those meeting the aims and scope of the journal will be sent for outside review. Each manuscript is reviewed by at least two referees.

IEJME operates a strictly blinded peer review process in which the reviewer's name is withheld from the author and the author's name from the reviewer.

As an initial consideration, all manuscripts submitted for review are expected to be free from language errors and must be written and formatted strictly by following the manuscript preparation guidelines of the journal. Manuscripts that are not entirely written according to the guidelines and/or do not reflect an expert use of the English language will not be considered for publication and will not be sent to any of the journal reviewers for evaluation. It is completely the author's responsibility to comply with the rules and check for any errors. Thus, all necessary actions should be taken by the author(s) before a manuscript is submitted to the journal.

Non-English speaking authors are encouraged to use language editing services to have their manuscripts checked and edited for including grammar, sentence structure, content clarity, formatting, punctuation, and spelling by native speakers/language experts.

By submitting a new manuscript, author(s) ensure that the manuscript:

- is suitable for the aims and scope of the journal,
- has not been previously published (in whole or part), nor is currently under evaluation for publication elsewhere,
- is prepared in accordance with the publication ethics of the journal,
- is approved by all co-author(s) and corresponding author is authorized to manage all correspondences on behalf of all co-author(s),

- adheres to the stylistic, bibliographic and language standards outlined in the Author Guidelines of the journal.

Before the manuscript is peer-reviewed by experts, all incoming manuscript submissions are subject to an initial screening by the editors. At this stage, editors may return the manuscript to authors for adjustments or may reject the manuscript without further evaluation. At any stage during peer review, editors may assign section editors/reviewers, request revisions from authors, or make a final decision regarding the submission. All submitted manuscripts are assigned a unique manuscript ID by the submission system. This ID should be stated in any communication with editorial or support staff.

The following article types are published in IEJME:

- research articles,
- review articles,
- book reviews,
- interviews.

IEJME is indexed and abstracted by:

### Editors

**Melanie Platz**, Chair of Didactics of Primary Education – Mathematics, Faculty of Mathematics and Computer Science, Saarland University, Saarbrücken, Germany

**Scott A. Courtney**, College of Education, Health, and Human Services, Kent State University, USA

**Arturo García-Santillán**, UCC Business School, Universidad Cristóbal Colón, Mexico

**Leong Kwan Eu**, Department of Mathematics and Science Education, University of Malaya, 50603 Kuala Lumpur, Malaysia

**Zehra Ersozlu**, Mathematics Education, Faculty of Arts and Education, School of Education, Deakin University, Geelong Waurin Ponds Campus, Locked Bag 20000, Geelong, VIC 3220, Australia

### Special Issue Editors

**Francisco Regis Vieira Alves**, Federal Institute of Science and Technology of Ceara, Brazil

### Book Review Editor

**Yujin Lee**, Indiana University-Purdue University, Indianapolis, USA

### Editorial Board Members

**Abdul Halim Abdullah**, Universiti Teknologi Malaysia, Malaysia

**Ali Bicer**, University of Wyoming, USA

**Bárbara Palharini**, Northern Paraná State University, Brazil

**Belén Giacomone**, Granada University, Spain

**Carmen Batanero**, Universidad de Granada, Spain

**Hamide Dogan-Dunlap**, The University of Texas at El Paso, USA

**Iran Abreu Mendes**, Universidade Federal do Pará, Brazil

**Ivanildo Carvalho**, Universidade Federal de Pernambuco, Brazil

**Jogymol K. Alex**, Walter Sisulu University, South Africa

**Karen Junqueira**, University of the Free State, South Africa

**Lyn English**, Queensland University of Technology, Australia

**Man-Fung Lo**, The Chinese University of Hong Kong, Hong Kong

**Marcos Formigosa**, Universidade Federal do Pará, Brazil

**Mashau Nkhangweni Lawrence**, Tshwane University of Technology, South Africa

**Merlin John**, Walter Sisulu University, South Africa

**Miftachul Huda**, Universiti Teknologi Malaysia (UTM), Malaysia

**Mildred A. Sebastian**, Cavite State University, Philippines

**Mourat A. Tchoshanov**, The University of Texas at El Paso, USA

**Patricia Patrick**, Texas Tech University, USA

**Peter Van Petegem**, University of Antwerp, Belgium
